WOW-YG01604 Directions For Use

Specification:

Product Name: RF Remote Control

Product Model: WOW-YG01604

Operating Voltage: DC12V

Operating Frequency: 433.92MHz

Stable Frequency Way: Crystal Oscillator

Coding Scheme: PT2262

Standby Current: 0MA

Operating Current: <12MA

Output Power: <12mW

Modulation Mode: OOK

Launch Distance: >100m (empty)

Instructions:

Remote control and controller are used together. The function of each button on the remote:

First 3 buttons (From left to right) respectively are: Light switch

with LED, LED color conversion, LED mode conversion

In the middle of 3 buttons (From top to bottom) respectively are:

Forward (motor), Pause (motor), Reverse (motor)

<u>Class B:</u> (Section 15.105)

FEDERAL COMMUNICATIONS COMMISSION

INTERFERENCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/ TV technician for help.

(Section 15.21)

CAUTION:

Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.
